

QUALITY POLICY

BSOG-QA-POLE-001-D01

BSOG Energy is a Romanian energy company aimed at developing green energy projects. BSOG Energy's business comprises all the activities related to: Project management and management of the feedstock, development and production of renewable energy in Romania. It is the policy of BSOG Energy to conduct all its activities in a manner that which ensure the highest standard of quality and strive to improve its quality performance.

BSOG Energy is focused to develop an Integrated Management System in place appropriate to own business scope, to purpose and context of the organisation. BSOG Energy Management commit to be permanently involved in promoting an organizational culture and continuously improvement of the Quality Management System by following below quality principles:

1. Build a mutually profitable relationship with all our interested parties, ensuring their long-term success, through the understanding of their needs and the needs of their customers as well.
2. Achieve our commitments for quality, cost, and schedule.
3. Processes will be developed and controlled to prevent errors before they occur.
4. Continuous improvement will be achieved by having an effective corrective and preventive action program that will address and eliminate causes of nonconforming services and products.
5. Complies with all the applicable requirements, regulations and codes of practice.
6. Maintain focus on enhancing customer satisfaction.
7. Develop staff competencies, creativity, empowerment and accountability through appropriate development programs and show strong management involvement and commitment.

Using these guiding principles, everyone in BSOG Energy is accountable for quality of products and services managed within the company.

This Quality Policy is communicated inside organisation and is available for the relevant interested parties and shall be applied in all BSOG Energy 's locations. BSOG Energy will review and audit all aspects of the quality management system to ensure that it is being complied with and to seek improvements to the system. The quality management system will continue to be actively developed in line with the development of BSOG Energy 's business processes.

Although overall responsibility for quality rests with BSOG Energy, and ultimately with the Managing Director, every employee, or contractor must recognise their own responsibilities (in particular, any specific responsibilities under legislation, BSOG Energy standards and procedures or delegated to them as individuals) to ensure the quality objectives are met.
